DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There are numerous phrases and clauses that are naming the claimed invention devices by other descriptive words other than what is used in the disclosure that are vague, indefinite, and/or awkwardly and confusingly worded, and therefore, are not fully understood. Further, it is extremely difficult to decipher and pin point each claimed invention devices with that of the figures and causing confusion (i.e., vague and unclear). Furthermore, it is difficult to render any kind of decision to the applicant's species election due the difficulties as noted above. Examiner will render election of Species in the next Office Action. The following are examples of such deficiencies:

Means for reception of at least one carrier tape reel.

Feeding means arranged for engagement with holes provided on the carrier tape.

First locking means.

Second locking means.

At least one tape guide.

Carrier tape retaining means for preventing accidental removal of the carrier tape from the tape guide when the tape guide is located away from the component mounting machine.

Art Unit: 3729

Exposure means for exposing the components at a picking position.

A snap-in arrangement for first and second locking means.

Please provide reference numerals to all the claimed limitations (claims 4-52) as well as support in the disclosure for better clarity.

MNOTE: No art rejections have been applied to the claims 1-52 since there are a great deal of confusion and uncertainty as to the proper interpretation of the limitations of claims. Therefore, it would not be proper to reject such claims on the basis of prior art. See MPEP 2173.06.

Conclusion

1. Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick K. Chang whose telephone number is (703) 308-4784.
